Health Net Individual & Family Coverage for You and Your Family

Health Net offers the following health care coverage options to individuals and families:

HMO – Our Individual & Family Plan Health Maintenance Organization (HMO) Plans are designed for people who would like one doctor to coordinate their medical care at predictable costs. You are required to choose a main doctor – called a Primary Care Physician (PCP) – from our Ambetter HMO Network. Your PCP oversees all of your health care and provides referral/authorization if specialty care is needed. When you choose one of our HMO Plans, you may only use a Physician or Hospital who is in the Health Net Ambetter HMO Network.

Is an HMO right for you?

With our Ambetter HMO Plans you are required to choose a PCP. Your PCP will provide and coordinate your medical care. You have the right to designate any PCP who participates in our Health Net Ambetter HMO network, has an office close enough to your residence to allow reasonable access to medical care and who is available to accept you or your Family Members, subject to the requirements of the Physician Group. For children, a pediatrician may be designated as the PCP. Until you make your PCP designation, Health Net designates one for you. Information on how to select a PCP and a listing of the participating PCP's in the Service Area are available on the Health Net website at www.myhealthnetca.com. You can also call **1-877-609-8711** to request provider information or contact your Health Net authorized broker.

Your PCP oversees all your health care and provides the referral/authorization if specialty care is needed. PCPs include general and family practitioners, internists, pediatricians and OB/GYNs. Many services require only a fixed Copayment from you. To obtain health care, simply present your ID card and pay the appropriate Copayment.

Your PCP must first be contacted for initial treatment and consultation before you receive any care or treatment through a Hospital, Specialist, or other Health Care Provider, except for OB/GYN visits and reproductive and sexual Health Care Services, as set out below. All treatments recommended by such providers must be authorized by your PCP.

You do not need Prior Authorization from Health Net or from any other person (including a PCP) in order to obtain access to obstetrical, gynecological, reproductive or sexual Health Care Services from a health care professional who specializes in obstetrics, gynecology, or reproductive and sexual health. The health care professional, however, may be required to comply with certain procedures, including obtaining Prior Authorization for certain services, following a pre-approved treatment Plan, or procedures for making referrals. A listing of participating health care professionals who specialize in obstetrics, gynecology or reproductive and sexual health is available on the Health Net website at www.myhealthnetca.com.

You can also call **1-877-609-8711** to request provider information or contact your Health Net authorized broker. Refer to the "Mental Health or Substance Use Disorder Services" section in this document for information about receiving care for Mental Health or Substance Use Disorders.

Your PCP belongs to a larger group of health care professionals, called a participating Physician Group. If you need care from a Specialist, your PCP refers you to one within this group.

Calendar year deductible

For some HMO Plans, a Calendar Year Deductible is required for certain services and supplies and is applied to the Out-of-Pocket Maximum. See the benefit grids for specific information. You must pay an amount of Covered Expenses for noted services equal to the Calendar Year Deductible before the benefits are paid by your Plan. After the Deductible is satisfied, you remain financially responsible for paying any other applicable Copayments until you satisfy the individual or family Out-of-Pocket Maximum. If you are a Member in a family of two or more members, you reach the Deductible either when you meet the amount for any one Member, or when your entire family reaches the family amount. Family Deductibles are equal to two times the individual Deductible.

You will be notified by us of your Deductible accumulation for each month in which benefits were used. You will also be notified when you have reached your Deductible amount for the Calendar Year. You can obtain the most up-to-date accrual balance on your Deductible accumulation or request that your accrual balance be sent to you by email by calling the Customer Contact Center at the telephone number on your ID card.

Out-of-pocket maximum

Copayments and Deductibles that you or your Family Members pay for Covered Benefits and supplies apply toward the individual or family Out-of-Pocket Maximum(OOPM).

The family OOPM is equal to two times the individual OOPM. After you or your Family Members meet your OOPM, you pay no additional amounts for Covered Benefits and supplies for the balance of the Calendar Year. Once an individual Member in a family satisfies the individual OOPM, the remaining enrolled Family Members must continue to pay the Copayments and Deductibles until either (a) the aggregate of such Copayments and Deductibles paid by the family reaches the family OOPM or (b) each enrolled Family Member individually satisfies the individual OOPM. You are responsible for all charges related to services or supplies not covered by the health Plan.

Payments for services or supplies not covered by this Plan will not be applied to this yearly OOPM. For the family OOPM to apply, you and your family must be enrolled as a family.

You will be notified by us of your OOPM accumulation for each month in which benefits were used. You will also be notified by us when you have reached your OOPM amount for the Calendar Year. You can obtain the most up-to-date accrual balance on your OOPM accumulation or request that your accrual balance be sent to you by email by calling the Customer Contact Center at the telephone number on your ID card.

Timely Access to Care

You may contact Health Net at the number shown on the back cover, 7 days per week, 24 hours per day to access triage or screening services. Health Net provides access to covered Health Care Services in a timely manner.

Cost-sharing means Copayments, including coinsurance and Deductibles. In addition, an American Indian or Alaskan Native who is enrolled in a zero cost-sharing Plan variation (because your expected income has been deemed by the Exchange as being at or below 300% of the Federal Poverty Level), has no cost-sharing obligation for Essential Health Benefits when items or services are provided by any participating provider.

¹Prenatal, postnatal, and newborn care office visits for Preventive Care Services, including preconception visits, are covered in full. See Copayment listing for "Preventive care services." If the primary purpose of the office visit is unrelated to a preventive service, or if other non-preventive services are received during the same office visit, a Copayment will apply for the non-preventive services.

²You may receive services on an in-person basis or via telehealth, if available, from your Primary Care Physician, a treating Specialist or from another contracting individual health professional, contracting clinic, or contracting health facility consistent with the service and existing timeliness and geographic access standards required under California law. Any cost share for services received through the Select Telehealth Services Provider will accrue toward your out-of-pocket maximum and Deductible (if your Plan has a Deductible). By scheduling through the Select Telehealth Services Provider, you consent to receive services via telehealth through the Select Telehealth Services Provider. See the Individual & Family *Plan Contract and EOC* for coverage information and for the definition of Telehealth Services. You have a right to access your medical records for services received through the Select Telehealth Services Provider. Unless you choose otherwise, any services provided through the Select Telehealth Services Provider shall be shared with your Primary Care Physician.

³Includes acupuncture visits, physical, occupational and speech therapy visits, and other office visits not provided by either Primary Care or specialty Physicians or not specified in another benefit category. Chiropractic services are not covered. Acupuncture services are provided by Health Net. Health Net contracts with American Specialty Health Plans of California, Inc. (ASH Plans) to offer quality and affordable acupuncture coverage.

⁴Preventive care services are covered for children and adults, as directed by your Physician, based on recommendations by the California Department of Public Health (CDPH), and guidelines from the U.S. Preventive Services Task Force (USPSTF) Grade A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) that have been adopted by the Centers for Disease Control and Prevention (CDC), and the guidelines for infants, children, adolescents and women's preventive health care as supported by the Health Resources and Services Administration (HRSA). Preventive care services include, but are not limited to, periodic health evaluations, immunizations, diagnostic preventive procedures, including Preventive Care Services for pregnancy, and preventive vision and hearing screening examinations, a human papillomavirus (HPV) screening test that is approved by the federal Food and Drug Administration (FDA), and the option of any cervical cancer screening test approved by the FDA. One breast pump and the necessary supplies to operate it will be covered for each pregnancy at no cost to the Member. We will determine the type of equipment, whether to rent or purchase the equipment and the vendor who provides it.

⁵No additional Copayment after the first 5 days of a continuous Skilled Nursing Facility stay.

⁶Orally administered anti-cancer drugs will have a Copayment maximum of \$250 for an individual prescription of up to a 30-day supply.

⁷If the pharmacy's cost of the prescription is less than the applicable Copayment, then you will only pay the pharmacy's cost of the prescription.

⁸Preventive drugs, including smoking cessation drugs, and contraceptives that are approved by the Food and Drug Administration are covered at no cost to the Member. Preventive drugs are prescribed over-the-counter drugs or Prescription Drugs that are used for preventive health purposes per the U.S. Preventive Services Task Force (USPSTF) A and B recommendations. No annual limits will be imposed on the number of days for the course of treatment for all FDA-approved smoking and tobacco cessation medications. Covered contraceptives are FDA-approved contraceptives that are either available over the counter or are only available with a prescription. Up to a 12-consecutive-calendar-month supply of covered FDA-approved, self-administered hormonal contraceptives may be dispensed with a single Prescription Drug Order. Generic Drugs will be dispensed when a Generic Drug equivalent is available. However, if a brand-name preventive drug or contraceptive is Medically Necessary and the Physician obtains Prior Authorization from Health Net, then the brand-name drug will be dispensed at no charge. Vaginal, oral, transdermal, and emergency contraceptives and condoms are covered under the Prescription Drug benefit. IUD, implantable and injectable contraceptives are covered (when administered by a Physician) under the medical benefit.

⁹The Ambetter by Health Net Drug List is the approved list of medications covered for illnesses and conditions. It is prepared by Health Net and distributed to Health Net contracted Physicians and Participating Pharmacies. Some drugs on the list may require Prior Authorization from Health Net. Drugs that are not listed on the list (previously known as nonformulary) that are not excluded or limited from coverage are covered. Some drugs that are not listed on the list do require Prior Authorization from Health Net. Health Net will approve a drug not on the list at the Tier 3 Copayment if the Member's Physician demonstrates medical necessity. Urgent requests from Physicians for authorization are processed, and prescribing providers are notified of Health Net's determination, as soon as possible, not to exceed 24 hours, after Health Net's receipt of the request and any additional information requested by Health Net that is reasonably necessary to make the determination. A Prior Authorization request is urgent when a Member is suffering from a health condition that may seriously jeopardize the Member's life, health, or ability to regain maximum function. Routine requests from Physicians are processed, and prescribing providers are notified of Health Net's determination, in a timely fashion, not to exceed 72 hours. For both urgent and routine requests, Health Net must also notify the Member or their designee of its decisions. If Health Net fails to respond within the required time limit, the Prior Authorization request is deemed granted. For a copy of the Ambetter by Health Net Drug List, which you can use to search for a particular drug, call Health Net's Customer Contact Center at the number listed on the back of your Health Net ID card or visit our website at www.myhealthnetca.com

Generic drugs will be dispensed when a Generic Drug equivalent is available. Health Net will cover Brand Name Drugs, including Specialty Drugs, that have a generic equivalent at the applicable Tier 2, Tier 3, or Tier 4 Copayment, when determined to be Medically Necessary.

¹⁰Tier 4 (Specialty Drugs) are specific Prescription Drugs that may have limited pharmacy availability or distribution, may be self-administered orally, topically, by inhalation, or by injection (either subcutaneously, intramuscularly or intravenously) requiring the Member to have special training or clinical monitoring for self-administration, includes drugs that the FDA or drug manufacturer requires to be distributed through a specialty pharmacy, or have high cost as established by Covered California. Tier 4 (Specialty Drugs) are identified in the Ambetter by Health Net Drug List with "SP", require Prior Authorization from Health Net and may be required to be dispensed through the specialty pharmacy vendor to be covered.

¹¹The pediatric dental benefits are provided by Health Net and administered by Dental Benefit Providers of California, Inc. (DBP). DBP is a California licensed specialized dental Plan and is not affiliated with Health Net. Additional pediatric dental benefits are covered. See the Individual & Family *Plan Contract and EOC* for details.

Cost-sharing means Copayments, including coinsurance and Deductibles. In addition, an American Indian or Alaskan Native who is enrolled in a zero cost-sharing Plan variation (because your expected income has been deemed by the Exchange as being at or below 300% of the Federal Poverty Level), has no cost-sharing obligation for Essential Health Benefits when items or services are provided by any participating provider.

- ¹ Prenatal, postnatal and newborn care office visits for Preventive Care Services, including preconception visits, are covered in full. See Copayment listing for “Preventive care services.” If the primary purpose of the office visit is unrelated to a preventive service, or if other non-preventive services are received during the same office visit, a Copayment will apply for the non-preventive services.
- ² You may receive services on an in-person basis or via telehealth, if available, from your Primary Care Physician, a treating Specialist or from another contracting individual health professional, contracting clinic, or contracting health facility consistent with the service and existing timeliness and geographic access standards required under California law. Any cost share for services received through the Select Telehealth Services Provider will accrue toward your out-of-pocket maximum and Deductible (if your Plan has a Deductible). By scheduling through the Select Telehealth Services Provider, you consent to receive services via telehealth through the Select Telehealth Services Provider. See the Individual & Family *Plan Contract and EOC* for coverage information and for the definition of Telehealth Services. You have a right to access your medical records for services received through the Select Telehealth Services Provider. Unless you choose otherwise, any services provided through the Select Telehealth Services Provider shall be shared with your Primary Care Physician.
- ³ Includes acupuncture visits, physical, occupational and speech therapy visits, and other office visits not provided by either Primary Care Physician or specialty Physicians or not specified in another benefit category. Chiropractic services are not covered. Acupuncture Services are provided by Health Net. Health Net contracts with American Specialty Health Plans of California, Inc. (ASH Plans) to offer quality and affordable acupuncture coverage.
- ⁴ Preventive care services are covered for children and adults, as directed by your Physician, based on the guidelines from the U.S. Preventive Services Task Force (USPSTF) Grade A and B recommendations, the Advisory Committee on Immunization Practices (ACIP) that have been adopted by the Centers for Disease Control and Prevention (CDC), and the guidelines for infants, children, adolescents and women’s preventive health care as supported by the Health Resources and Services Administration (HRSA). Preventive care services include, but are not limited to, periodic health evaluations, immunizations, diagnostic preventive procedures, including Preventive Care Services for pregnancy, and preventive vision and hearing screening examinations, a human papillomavirus (HPV) screening test that is approved by the federal Food and Drug Administration (FDA), and the option of any cervical cancer screening test approved by the FDA. One breast pump and the necessary supplies to operate it will be covered for each pregnancy at no cost to the Member. We will determine the type of equipment, whether to rent or purchase the equipment and the vendor who provides it.
- ⁵ For hospitals that do not separate charges for inpatient facility and inpatient professional services, the inpatient facility fee applies.
- ⁶ Orally administered anti-cancer drugs will have a Copayment maximum of \$250 for an individual prescription of up to a 30-day supply.
- ⁷ If the pharmacy’s cost of the prescription is less than the applicable Copayment, then you will only pay the pharmacy’s cost of the prescription.

Preventive drugs are prescribed over-the-counter drugs or Prescription Drugs that are used for preventive health purposes per the U.S. Preventive Services Task Force (USPSTF) A and B recommendations. No annual limits will be imposed on the number of days for the course of treatment for all FDA-approved smoking and tobacco cessation medications. Covered contraceptives are FDA-approved contraceptives that are either available over the counter or are only available with a prescription. Up to a 12-consecutive-calendar-month supply of covered FDA-approved, self-administered hormonal contraceptives may be dispensed with a single Prescription Drug Order. Generic Drugs will be dispensed when a Generic Drug equivalent is available. However, if a brand-name preventive drug or contraceptive is Medically Necessary and the Physician obtains Prior Authorization from Health Net, then the brand-name drug will be dispensed at no charge. Vaginal, oral, transdermal, and emergency contraceptives and condoms are covered under the Prescription Drug benefit. IUD, implantable and injectable contraceptives are covered (when administered by a Physician) under the medical benefit.
- ⁹ The Ambetter from Health Net Drug List is the approved list of medications covered for illnesses and conditions. It is prepared by Health Net and distributed to Health Net contracted Physicians and Participating Pharmacies. Some drugs on the list may require Prior Authorization from Health Net. Drugs that are not listed on the list (previously known as nonformulary) that are not excluded or limited from coverage are covered. Some drugs that are not listed on the list do require Prior Authorization from Health Net. Health Net will approve a drug not on the list at the Tier 3 Copayment if the Member’s Physician demonstrates medical necessity. Urgent requests from Physicians for authorization are processed, and prescribing providers are notified of Health Net’s determination, as soon as possible, not to exceed 24 hours, after Health Net’s receipt of the request and any additional information requested by Health Net that is reasonably necessary to make the determination. A Prior Authorization request is urgent when a Member is suffering from a health condition that may seriously jeopardize the Member’s life, health, or ability to regain maximum function. Routine requests from Physicians are processed, and prescribing providers are notified of Health Net’s determination, in a timely fashion, not to exceed 72 hours. For both urgent and routine requests, Health Net must also notify the Member or their designee of its decisions. If Health Net fails to respond within the required time limit, the Prior Authorization request is deemed granted. For a copy of the Ambetter from Health Net Drug List, which you can use to search for a particular drug, call Health Net’s Customer Contact Center at the number listed on the back of your Health Net ID card or visit our website at www.myhealthnetca.com.
Generic Drugs will be dispensed when a Generic Drug equivalent is available. Health Net will cover Brand Name Drugs, including Specialty Drugs, that have a generic equivalent at the applicable Tier 2, Tier 3 or Tier 4 Copayment, when determined to be Medically Necessary.
- ¹⁰ Tier 4 (Specialty Drugs) are specific Prescription Drugs that may have limited pharmacy availability or distribution, may be self-administered orally, topically, by inhalation, or by injection (either subcutaneously, intramuscularly or intravenously) requiring the Member to have special training or clinical monitoring, for self-administration, includes drugs that the FDA or drug manufacturer requires to be distributed through a specialty pharmacy, or have high cost as established by Covered California. Tier 4 (Specialty Drugs) are identified in the Ambetter from Health Net Drug List with “SP”, require Prior Authorization from Health Net and may be required to be dispensed through the specialty pharmacy vendor to be covered.

Domestic Partner

Domestic partner is the Subscriber's partner if the Subscriber and partner are a couple who are registered Domestic Partners that meet all the requirements of Section 297 or 299.2 of the California Family Code.

How does the monthly billing work?

Your premium must be received by Health Net by the first day of the coverage month. If there are premium increases or changes in benefits or Plan Contract provisions after the enrollment Effective Date, you will be notified at least 60 days in advance.

Health Net will provide Subscribers with at least 60 days' notice of any changes in benefits, subscription charges or Plan Contract provisions. There is no vested right to receive the benefits of this health Plan.

Can benefits be terminated?

You may terminate your coverage by notifying Covered California or Health Net at least 14 days before the date that you request that the Plan Contract terminate. In such event, the Plan Contract will end at 12:01 a.m. 14 days after you notify Covered California or Health Net, on a later date that you request, or on an earlier date that you request if Health Net agrees to the earlier date. Health Net has the right to terminate your coverage individually for any of the following reasons:

- You do not pay your premium on time (Health Net will issue a 30-day prior notice of our right to terminate your coverage for non-payment of premium. The 30-day prior notice will be sent on or before the first day of the month for which premiums are due and will describe the 30-day grace period, which grace period begins after the last day of paid coverage. If you do not pay your premiums by the first day of the month for which premiums are due, Health Net can terminate your coverage after the 30-day grace period.). Subscribers and enrolled dependents who are receiving Federal Advance Payment of the Premium Tax Credit have a three-month grace period in lieu of the 30-day grace period.

This Plan will provide coverage for all allowable claims for the first month of a three-month grace period for non-payment of subscription charges. However, Health Net may suspend your coverage and pend claims for services rendered by Health Care Providers in the second and third month of the 3-month grace period, and Health Net may ultimately deny these claims unless subscription charges due for the term of coverage are paid in full by the end of the three-month grace period. If the entire amount of subscription charges due are paid before the end of the three-month grace period, coverage that was suspended will be reinstated to the last day of paid coverage. Providers whose claims are denied by Health Net may bill you for payment.

- You and/or your Family Member(s) cease being eligible (see "Who is Eligible?" section)
- You commit any act or practice which constitutes fraud, or for any intentional misrepresentation of material fact under the terms of the agreement. Some examples include misrepresenting eligibility information about you or a Dependent; presenting an invalid prescription or Physician order; or misusing a Health Net Member ID card (or letting someone else use it).

Health Net can terminate your coverage, together with all like policies, by giving 90 day's written notice. Members are responsible for payment of any services received after termination of coverage at the provider's prevailing non-member rates.

This is also applicable to Members who are hospitalized or undergoing treatment for an ongoing condition on the termination date of coverage.

If you terminate coverage for yourself or any of your Family Members, you may apply for re-enrollment, but Health Net may decline enrollment at its discretion.

Can coverage be rescinded or canceled for fraud or intentional misrepresentation of material fact?

When Health Net can rescind or cancel a plan contract:

Within the first 24 months of coverage Health Net may rescind the *Plan Contract* for any act or practice which constitutes fraud, or for any intentional misrepresentation of material fact in the written information submitted by you or on your behalf on or with your enrollment application.

Health Net may cancel a Plan Contract for any act or practice which constitutes fraud, or for any intentional misrepresentation of material fact under the terms of the Plan Contract.

A material fact is information which, if known to Health Net, would have caused Health Net to decline to issue coverage.

Cancellation of a Plan Contract

If this *Plan Contract* is canceled, you will be sent a notice of cancellation 30 days prior to the Effective Date of the cancellation.

Rescission of a Plan Contract

If the *Plan Contract* is rescinded, Health Net shall have no liability for the provision of coverage under the *Plan Contract*.

By signing the enrollment application, you represent that all responses are true, complete and accurate, to the best of your knowledge, and that should Health Net accept your enrollment application, the enrollment application will become part of the *Plan Contract* between Health Net and you. By signing the enrollment application, you further agree to comply with the terms of the *Plan Contract*.

If after enrollment Health Net investigates your enrollment application information, Health Net must notify you of this investigation, the basis of the investigation and offer you an opportunity to respond.

If Health Net makes a decision to rescind your coverage, such decision will be first sent for review to an independent third-party auditor contracted by Health Net.

If the *Plan Contract* is rescinded, Health Net will provide a 30-day written notice prior to the Effective Date of the termination that will:

1. explain the basis of the decision;
2. provide the Effective Date of the rescission;
3. clarify that all Members covered under your coverage other than the individual whose coverage is rescinded may continue to remain covered;
4. explain that your monthly premium will be modified to reflect the number of Members that remain under the Plan Contract;

5. explain your right and the options you have of going to both Health Net and/or the Department of Managed Health Care if you do not agree with Health Net's decision.

6. Include a Right to Request Review form. You have 180 days from the date of the Notice of Cancellation, Rescission or Nonrenewal to submit the Right to Request Review form to Health Net and/or the Department of Managed Health Care.

If the *Plan Contract* is rescinded:

1. Health Net may revoke your coverage as if it never existed and you will lose health benefits including coverage for treatment already received;
2. Health Net will refund all premium amounts paid by you, less any medical expenses paid by Health Net on behalf of you and may recover from you any amounts paid under the *Plan Contract* from the original date of coverage; and
3. Health Net reserves its right to obtain any other legal remedies arising from the rescission that are consistent with California law.

If Health Net denies your appeal, you have the right to seek assistance from the California Department of Managed Health Care.

Are there any renewal provisions?

Subject to the termination provisions discussed, coverage will remain in effect for each month prepayment fees are received and accepted by Health Net. You will be notified 60 days in advance of any changes in fees, benefits or contract provisions.

Does Health Net coordinate benefits?

Health Net will coordinate benefits for our Members with pediatric dental benefits covered under this Plan. There is no coordination of benefits for medical services in the Individual market.

What is utilization review?

Health Net makes medical care covered under our Individual & Family Exchange Plans subject to policies and procedures that lead to efficient and prudent use of resources and, ultimately, to continuous improvement of quality of care. Health Net bases the approval or denial of services on the following main procedures:

- Evaluation of medical services to assess medical necessity and appropriate level of care
- Implementation of case management for long-term or chronic conditions
- Review and authorization of inpatient admission and referrals to noncontracting providers
- Review of scope of benefits to determine coverage

If you would like additional information regarding Health Net's Utilization Review System, please call the Health Net's Customer Contact Center at 1-800-839-2172.

Does Health Net cover the cost of participation in Approved Clinical Trials?

Routine patient care costs for items and services furnished in connection with participating in an Approved Clinical Trial are covered when Medically Necessary, authorized by Health Net, and either the Member's treating Physician has recommended participation in the trial or the Member has provided medical and scientific information establishing eligibility for the Approved Clinical Trial. For further information, please refer to the *Plan Contract and Evidence of Coverage*.

What if I have a disagreement with Health Net?

Members dissatisfied with the quality of care received, or who believe they were denied service or a claim in error, or subject to or received an adverse benefit determination may file a grievance or appeal. An adverse benefit determination includes: (a) rescission of coverage, even if it does not have an adverse effect on a particular benefit at the time; (b) determination of an individual's eligibility to participate in this Health Net Plan; (c) determination that a benefit is not covered; (d) an exclusion or limitation of an otherwise Covered Benefit based on a pre-existing condition exclusion or a source of injury exclusion; or, (e) determination that a benefit is experimental, investigational, or not Medically Necessary or appropriate.

In addition, Plan Members can request an Independent Medical Review (IMR) of disputed Health Care Services from the Department of Managed Health Care if they believe that Health Care Services eligible for coverage and payment under their Health Net Plan was improperly denied, modified or delayed by Health Net or one of its contracting providers.

Also, if Health Net denies a Member's appeal of a denial for lack of medical necessity or denies or delays coverage for requested treatment involving experimental or investigational drugs, devices, procedures or therapies, Members can request an Independent Medical Review (IMR) of Health Net's decision from the Department of Managed Health Care if they meet eligibility criteria set out in the *Plan Contract and Evidence of Coverage*.

Members not satisfied with the results of the appeals process may submit the problem to binding arbitration. Health Net uses binding arbitration to settle disputes, including medical malpractice. As a condition of enrollment, Members give up their right to a jury or trial before a judge for the resolution of such disputes.

The California Department of Managed Health Care is responsible for regulating Health Care Service Plans. If you have a grievance against Health Net, you should first telephone Health Net at **1-800-839-2172** and use our grievance process before contacting the Department.

Utilizing this grievance procedure does not prohibit any potential legal rights or remedies that may be available to you. If you need help with a grievance involving an emergency, a grievance that has not been satisfactorily resolved by Health Net, or a grievance that has remained unresolved for more than 30 days, you may call the Department for assistance. You may also be eligible for an Independent Medical Review (IMR). If you are eligible for IMR, the IMR process will provide an impartial review of medical decisions made by a health Plan related to the medical necessity of a proposed service or treatment, coverage decisions for treatments that are experimental or investigational in nature and payment disputes for emergency or urgent medical services. The Department also has a toll-free telephone number **1-888-466-2219** and a **TDD line 1-877 688-9891** for the hearing and speech impaired. The Department's internet web site **www.dmhca.gov** has complaint forms, IMR application forms and instructions online.

What if I need a second opinion?

With the Ambetter HMO Plan, Health Net Members have the right to request a second opinion when:

- The Member's PCP or a referral Physician gives a diagnosis or recommends a treatment Plan with which the Member is not satisfied;
- The Member is not satisfied with the result of treatment received;

- The Member is diagnosed with, or a treatment Plan is recommended for, a condition that threatens loss of life, limb, or bodily function, or a substantial impairment, including, but not limited to a Serious Chronic Condition, or
- The Member's PCP or a referral Physician is unable to diagnose the Member's condition, or test results are conflicting.

To obtain a copy of Health Net's second opinion policy, contact the Health Net's Customer Contact Center at **1-800-522-0088**.

What are Health Net's premium ratios?

Health Net's 2025 ratio of premium costs to health services paid for Individual & Family HMO Plans was 82.0%.

What is the relationship of the involved parties?

Physician Groups, contracting Physicians, hospitals, participating providers, and other Health Care Providers are not agents or employees of Health Net. Health Net and each of its employees are not the agents or employees of any Physician Group, contract Physician, Hospital, or other Health Care Provider. All of the parties are independent contractors and contract with each other to provide you with the Covered Benefits or supplies of your coverage option. Members are not liable for any acts or omissions of Health Net, their agents, or employees, or of Physician Groups, participating providers, any Physician or Hospital, or any other person or organization with which Health Net has arranged or will arrange to provide the Covered Benefits and supplies of your Plan.

What about continuity of care upon termination of a provider contract?

If Health Net's contract with a Physician Group, participating provider or other provider is terminated, Health Net will transfer any affected Members to another contracting Physician Group or participating provider and make every effort to ensure continuity of care. At least 60-days prior to termination of a contract with a Physician Group, participating provider or acute care Hospital to which Members are assigned for services, Health Net will provide a written notice to affected Members. For all other hospitals that terminate their contract with Health Net, a written notice will be provided to affected Members within five days after the Effective Date of the contract termination.

In addition, the Member may request continued care from a provider whose contract is terminated if at the time of termination the Member was receiving care from such a provider for:

- An Acute Condition;
- A Serious Chronic Condition not to exceed twelve months from the contract termination date;
- A pregnancy (including the duration of the pregnancy and immediate postpartum care)
- Maternal mental health, not to exceed 12 months from the diagnosis or from the end of the pregnancy, whichever occurs later;
- A newborn up to 36 months of age, not to exceed twelve months from the contract termination date;
- A Terminal Illness (for the duration of the Terminal Illness); or

- A surgery or other procedure that has been authorized by Health Net as part of a documented course of treatment.

Health Net may provide coverage for completion of services from a provider whose contract has been terminated, subject to applicable Copayments and any other exclusions and limitations of this Plan and if such provider is willing to accept the same contract terms applicable to the provider prior to the provider's contract termination. You must request continued care within 30 days of the provider's date of termination, unless you can show that it was not reasonably possible to make the request within 30 days of the provider's date of termination and you make the request as soon as reasonably possible.

To request continued care for medical services, you will need to complete a Continuity of Care Request Form. If you would like more information on how to request continued care, or request a copy of the Continuity of Care Request Form or of our continuity of care policy, please contact Health Net's Customer Contact Center at the number on the back of your Health Net ID card or visit our website at **www.myhealthnetca.com**.

If you need continued care for Mental Health or Substance Use Disorders, please contact the Customer Contact Center at the telephone number on your Health Net ID card.

Do providers limit services for reproductive care?

Some hospitals and other providers do not provide one or more of the following services that may be covered under the Plan's *Plan Contract and Evidence of Coverage* and that you or your Family Member might need: family planning; contraceptive services, including emergency contraception; sterilization, including tubal ligation at the time of labor and delivery; infertility treatments; or abortion. You should obtain more information before you enroll. Call your prospective doctor, medical group, independent practice association, or clinic, or call Health Net's Customer Contact Center at **1-800-522-0088** to ensure that you can obtain the Health Care Services that you need.

What is the method of provider reimbursement?

Health Net uses financial incentives and various risk-sharing arrangements when paying providers. Members may request more information about our payment methods by contacting Health Net's Customer Contact Center at the telephone number on the back of their Health Net ID card.

When and how does Health Net pay my medical bills?

We will coordinate the payment for Covered Benefits when you receive care from a participating provider or your Primary Care Physician or, for the HMO Plans, when you are referred by your PCP to a Specialist. We have agreements with these Physicians that eliminate the need for claim forms. Simply present your Health Net Member ID card.

Am I required to see my Primary Care Physician or a participating provider if I have an emergency?

Health Net covers Emergency Services and Care and Urgently Needed Care throughout the world.

In serious emergency situations:

Call "911" or go to the nearest Hospital.

If your situation is not so severe:

HMO Plan Members should call their Primary Care Physician or Physician Group, or a Participating Mental Health Professional. You can also call 988, the national suicide and mental health crises hotline system.

If you are unable to call and you need medical or mental health care right away, go to the nearest medical center or Hospital.

Emergency care includes medical screening, examination, and evaluation by a Physician (or other personnel to the extent permitted by applicable law and within the scope of their license and privileges) to determine if an Emergency Medical Condition or active labor exists and, if it does, the care, treatment, and surgery, if within the scope of that person's license, necessary to relieve or eliminate the Emergency Medical Condition, within the capability of the facility.

Emergency medical condition is a medical condition manifesting itself by acute symptoms of sufficient severity (including severe Pain) such that the absence of immediate medical attention could reasonably be expected to result in any of the following: (a) Placing the patient's health in serious jeopardy; (b) Serious impairment

to bodily functions; or (c) Serious dysfunction of any bodily organ or part. Active labor means labor at the time that either of the following could reasonably be expected to occur: (a) there is inadequate time to effect safe transfer to another Hospital prior to delivery; or (b) a transfer poses a threat to the health and safety of the Member or their unborn child.

Emergency care will also include additional screening, examination and evaluation by a Physician (or other personnel to the extent permitted by applicable law and within the scope of their license and privileges) to determine if a Psychiatric Emergency Medical Condition exists, and the care and treatment necessary to relieve or eliminate the Psychiatric Emergency Medical Condition within the capacity of the facility or by transferring the Member to a psychiatric unit within a general acute Hospital or to an acute psychiatric Hospital as Medically Necessary.

All air and ground ambulance and ambulance transport services provided as a result of a 911 emergency response system request for assistance will be covered, if the request meets the criteria for Emergency Services and Care as described in the *Plan Contract and EOC*.

All Follow-Up Care after the emergency or urgency has passed and your condition is stable, must be provided or authorized by your Primary Care Physician or Physician Group, otherwise, it will not be covered by Health Net.

Am I liable for payment of certain services?

We are responsible for paying participating providers for Covered Benefits. Except for Copayments and Deductibles, participating providers may not bill you for charges in excess of our payment. You are financially responsible for: (a) services beyond the benefit limitations stated in the Plan's *Plan Contract and EOC*; and (b) services not covered by the Individual & Family Exchange Plan. The Individual & Family Exchange Plans do not cover prepayment fees, Copayments, Deductibles, services and supplies not covered by the Individual & Family Exchange Plans, or non-emergency care rendered by a non-participating provider.

Can I be reimbursed for out-of-network claims?

Some non-participating providers will ask you to pay a bill at the time of service. If you have to pay a bill for Covered Benefits, submit a copy of the bill, evidence of its payment and the emergency room or urgent care center report to us for reimbursement within one year of the date the service was rendered. Coverage for services rendered by non-participating providers is limited to Emergency Services and Care and, when you are outside a 30-mile radius of your Physician Group, urgent care.

How does Health Net handle confidentiality and release of Member information?

Health Net knows that personal information in your medical records is private. Therefore, we protect your personal health information in all settings. As part of the application or enrollment form, Health Net Members sign a routine consent to obtain or release their Medical Information. This consent is used by Health Net to ensure notification to and consent from Members for present and future routine needs for the use of personal health information.

This consent includes the obtaining or release of all records pertaining to medical history, services rendered or treatment given to all Subscribers and Members under the Plan for the purpose of review, investigation or evaluation of an application, claim, appeals (including the release to an independent reviewer organization) or grievance, or for preventive health or health management purposes.

We will not release your medical records or other confidential information to anyone such as employers or insurance brokers, who is not authorized to have that information. We will only release information if you give us special consent in writing. The only time we would release such information without your special consent is when we have to comply with a law, court order, or subpoena. Often, Health Net is required to comply with aggregated measurement and data reporting requirements. In those cases, we protect your privacy by not releasing any information that identifies our Members.

Privacy Practices

For a description of how protected health information about you may be used and disclosed and how you can get access to this information, please see the “Notice of Privacy Practices” in the Plan’s Plan Contract.

We shall not disclose Medical Information related to Sensitive Services provided to a Protected Individual to the Subscriber or any Plan enrollees other than the Protected Individual receiving care, absent an express written authorization of the Protected Individual receiving care.

How does Health Net deal with new technologies?

New technologies are those procedures, drugs or devices that have recently been developed for the treatment of specific diseases or conditions, or are new applications of existing procedures, drugs or devices. New technologies are considered Investigational Services or Experimental Services during various stages of clinical study as safety and effectiveness are evaluated and the technology achieves acceptance into the medical standard of care. The technologies may continue to be considered Investigational Services or Experimental Services if clinical study has not shown safety or effectiveness or if they are not considered standard care by the appropriate medical specialty. Approved technologies are integrated into Health Net benefits.

Health Net determines whether new technologies should be considered medically appropriate, or Investigational Services or Experimental Services, following extensive review of medical research by appropriately specialized Physicians. Health Net requests review of new technologies by an independent, expert medical reviewer in order to determine medical appropriateness or Investigational Services or Experimental Services status of a technology or procedure.

The expert medical reviewer also advises Health Net when patients require quick determinations of coverage, when there is no guiding principle for certain technologies, or when the complexity of a patient’s medical condition requires expert evaluation. If Health Net denies, modifies or delays coverage for your requested treatment on the basis that it is Experimental or Investigational, you may request an Independent Medical Review (IMR) of Health Net’s decision from the Department of Managed Health Care. Please refer to the “Independent Medical Review of Grievances Involving a Disputed Health Care Service” in the *Plan Contract and Evidence of Coverage* for additional details.

What are Health Net’s Utilization Management processes?

Utilization management is an important component of health care management. Through the processes of Prior Authorization, concurrent and retrospective review, and care management, we evaluate the services provided to our Members to be sure they are Medically Necessary and appropriate for the setting and time.

This oversight helps to maintain Health Net’s high quality medical management standards.

Prior Authorization

Certain proposed services may require an assessment prior to approval. Evidence-based criteria are used to evaluate that the procedure is Medically Necessary and planned for the appropriate setting (i.e., inpatient, ambulatory surgery, etc.).

Concurrent Review

This process continues to authorize inpatient and certain outpatient conditions on a concurrent basis while following a Member’s progress, such as during inpatient hospitalization or while receiving outpatient home care services.

Discharge Planning

This component of the concurrent review process ensures that planning is done for a Member’s safe discharge in conjunction with the Physician’s discharge orders and to authorize post Hospital services when needed.

Retrospective Review

This medical management process assesses the appropriateness of medical services on a case-by-case basis after the services have been provided. It is usually performed on cases where Prior Authorization was required but not obtained.

Care or Case Management

Nurse care managers provide assistance, education and guidance to Members (and their families) through major acute and/or chronic long-term health problems. The care managers work closely with Members and their Physicians and community resources.

Additional Product Information

Mental health or substance use disorders

When you need to see a Participating Mental Health Professional, contact the Health Net Customer Contact Center at the phone number on your Health Net ID card. Health Net will help you identify a Participating Mental Health Professional within the network, close to where you live, with whom you can make an appointment.

Certain services and supplies for Mental Health or Substance Use Disorders may require Prior Authorization by Health Net in order to be covered.

Please refer to the Individual & Family Exchange *Plan Contract and EOC* for a more complete description of Mental Health or Substance Use Disorder services and supplies, including those that require Prior Authorization by Health Net.

You have a right to receive timely and geographically accessible Mental Health or Substance Use Disorder (MH/SUD) services when you need them. If Health Net fails to arrange those services for you with an appropriate provider who is in the health Plan's network, the health Plan must cover and arrange needed services for you from an out-of-network provider. If that happens, you do not have to pay anything other than your ordinary in-network cost sharing.

If you do not need the services urgently, your health Plan must offer an appointment for you that is no more than 10 business days from when you requested the services from the health Plan. If you urgently need the services, your health Plan must offer you an appointment within 48 hours of your request (if the health Plan does not require Prior Authorization for the appointment) or within 96 hours (if the health Plan does require Prior Authorization).

If your health Plan does not arrange for you to receive services within these timeframes and within geographic access standards, you can arrange to receive services from any licensed provider, even if the provider is not in your health Plan's network. To be covered by your health Plan, your first appointment with the provider must be within 90 calendar days of the date you first asked the Plan for the MH/SUD services.

If you have questions about how to obtain MH/SUD services or are having difficulty obtaining services, you can: (1) call your health Plan at the telephone number on the back of your health Plan identification card; (2) call the California Department of Managed Health Care's Help Center at 1-888-466-2219; or (3) contact the California Department of Managed Health Care through its website at www.healthhelp.ca.gov to request assistance in obtaining MH/SUD services.

CVS minute clinic services

The CVS MinuteClinic is a health care facility, generally inside CVS/pharmacy stores, which is designed to offer an alternative to a Physician's office visit for the unscheduled treatment of non-emergency illnesses or injuries such as strep throat, pink eye or seasonal allergies. CVS MinuteClinics also offer certain Preventive Care Services and immunizations. They are not designed to be an alternative for Emergency Services and Care or the ongoing care provided by a Physician.

You do not need Prior Authorization or a referral from your Primary Care Physician or contracting Physician Group in order to obtain access to CVS MinuteClinic services. However, under the HMO Plans, a referral from the contracting Physician Group or Primary Care Physician is required for any Specialist consultations. For more detailed information about CVS MinuteClinics, please refer to the Health Net Individual & Family Exchange *Plan Contract and Evidence of Coverage* or contact the Health Net Customer Contact Center at the telephone number on your Health Net ID card.

Telehealth consultations through the select telehealth services provider

Health Net contracts with certain Select Telehealth Services Providers to provide Telehealth Services for medical, Mental Health or Substance Use Disorder conditions. The designated Select Telehealth Services Provider for this Plan is listed on your Health Net ID card.

To obtain services, contact the Select Telehealth Services Provider directly as shown on your ID card. Services from the Select Telehealth Services Provider are not intended to replace services from your Physician, but are a supplemental service that may provide telehealth coverage for certain services at a lower cost. You are not required to use the Health Net selected Telehealth Services provider for Telehealth Services.

Telehealth consultations through the Select Telehealth Services Provider are confidential consultations by telephone or secure online video. The Select Telehealth Services Provider provides primary care services and may be used when your Physician's office is closed or you need quick access to a Physician. You do not need to contact your Primary Care Physician prior to using telehealth consultation services through the Select Telehealth Services Provider.

Prescription drug program

Health Net is contracted with many major pharmacies including, supermarket-based pharmacies and privately owned pharmacies in California. Please visit our website at **www.myhealthnetca.com** to find a conveniently located Participating Pharmacy, or call Health Net's Customer Contact Center at **1-800-522-0088**.

Specific exclusions and limitations apply to the Prescription Drug Program. See the Health Net Individual & Family Exchange *Plan Contract and Evidence of Coverage* for complete details. Remember, limits on quantity, dosage and treatment duration may apply to some drugs.

Maintenance Prescriptions By Mail Order Drug Program

If your prescription is for a Maintenance Drug, you have the option of filling it through our convenient mail order program.

Maintenance Drugs are Prescription Drugs taken continuously to manage chronic or long-term conditions where Members respond positively to drug treatment. The mail order administrator may only dispense up to a 90-consecutive-calendar-day supply of a covered Maintenance Drug and each refill allowed by that order. Maintenance Drugs may also be obtained at a CVS retail pharmacy under the mail order program benefits. You may obtain a Prescription Mail Order Form and further information by contacting the Customer Contact Center at **1-800-522-0088**

or contact us at **www.myhealthnetca.com**.

Note: Schedule II narcotic drugs are not covered through mail order. See the Health Net Individual & Family Exchange *Plan Contract and EOC* for additional information.

The Ambetter by Health Net Drug List: Tier 1 drugs (most Generic Drugs and low-cost preferred Brand Name Drugs) and Tier 2 Drugs (non-preferred Brand Name Drugs, preferred Brand Name Drugs and drugs recommended by the Pharmacy and Therapeutics Committee based on drug safety, efficacy, and cost).

The Ambetter by Health Net Drug List (or Formulary or the List) is the approved list of medications covered for illnesses and conditions. It was developed to identify the safest and most effective medications for Health Net Members while attempting to maintain affordable pharmacy benefits.

We specifically suggest to all Health Net participating providers, contracting Primary Care Physicians and Specialists that they refer to this list when choosing drugs for patients who are Health Net Members. When your Physician prescribes medications listed in the Ambetter by Health Net Drug List, it ensures that you are receiving a high-quality prescription medication that is also of high value.

The Ambetter by Health Net Drug List is updated regularly, based on input from the Pharmacy and Therapeutics (P&T) Committee. This committee's members are actively practicing Physicians of various medical specialties and clinical pharmacists. Voting members are recruited from contracting Physician Groups throughout California based on their experience, knowledge and expertise. In addition, the P&T Committee frequently consults with other medical experts to provide additional input to the Committee. Updates to the Ambetter by Health Net Drug List and drug usage guidelines are made as new clinical information and new drugs become available. In order to keep the list current, the P&T Committee evaluates clinical effectiveness, safety, and overall value through:

- Medical and scientific publications

- Relevant utilization experience
- Physician recommendations

To obtain a copy of Health Net's most current Ambetter by Health Net Drug List, please visit our web site at **www.myhealthnetca.com**, or call Health Net's Customer Contact Center at **1-800-522-0088**. You can search the Ambetter by Health Net Drug List to determine whether or not a particular drug is covered.

Tier 3 Drugs

Tier 3 Drugs consists of non-preferred Brand Name Drugs or drugs that are recommended by the Health Care Service Plan's Pharmacy and Therapeutics Committee based on drug safety, efficacy, and cost, or that generally have a preferred and often less costly therapeutic alternative at a lower tier.

Tier 4 Drugs (Specialty Drugs)

Tier 4 Drugs (Specialty Drugs) are drugs that the Food and Drug Administration of the United States Department of Health and Human Services or the manufacturer requires to be distributed through a specialty pharmacy, drugs that require the Member to have special training or clinical monitoring for self-administration, or drugs that cost the health Plan more than six hundred dollars (\$600) net of rebates for a one-month supply. Tier 4 Drugs (Specialty Drugs) are identified in the Ambetter by Health Net Drug List with "SP." Refer to the Ambetter by Health Net Drug List on our website at **www.myhealthnetca.com** for the Specialty Drugs listing.

All Tier 4 Drugs (Specialty Drugs) require Prior Authorization from Health Net and may be required to be dispensed through the specialty pharmacy vendor to be covered. Tier 4 Drugs (Specialty Drugs) are not available through mail order.

Self-injectable drugs (other than insulin), including drugs for the treatment of hemophilia, and needles and syringes used with these self-injectable drugs are included under Tier 4 Drugs (Specialty Drugs), which are subject to Prior Authorization and must be obtained through Health Net's contracted specialty pharmacy vendor. Your PCP or treating Physician will coordinate the authorization and upon approval the specialty pharmacy vendor will arrange for the dispensing of the drugs, needles and syringes. The specialty pharmacy vendor may contact you directly to coordinate the delivery of your medications.

Step Therapy

Step therapy is a process in which you may need to use one type of Prescription Drug before Health Net will cover another one. We check certain Prescription Drugs to make sure that proper prescribing guidelines are followed. These guidelines help you get high quality and cost-effective Prescription Drugs. Exceptions to the step therapy process are subject to Prior Authorization. However, if you were taking a Prescription Drug for a medical condition under a previous Plan before enrolling in this HMO Plan, you will not be required to use the step therapy process to continue using the Prescription Drug.

Step Therapy Exception

A step therapy exception is defined as a decision to override a generally applicable step therapy protocol in favor of coverage of the Prescription Drug prescribed by a Health Care Provider for a Member. For more information on the step therapy exception process, please see "Step Therapy Exception" in the Ambetter by Health Net Drug List on **www.myhealthnetca.com**.

If an exception request is approved, drugs will be covered, including refills, as shown in the "Schedule of Benefits and Copayments" section of your *Plan Contract and EOC*. If an exception is denied, the drug is not covered, and you are responsible for the entire cost of the drug.

What is "Prior Authorization"?

Some Tier 1, Tier 2 and Tier 3 prescription medications require Prior Authorization. This means that your doctor must contact Health Net in advance to provide the medical reason for prescribing the medication. Upon receiving your Physician's request for Prior Authorization, Health Net will evaluate the information submitted and make a determination based on established clinical criteria for the particular medication. You may obtain a list of drugs requiring Prior Authorization by visiting our website at **www.myhealthnetca.com** or contact the Health Net Customer Contact Center at the phone number on the back cover.

The criteria used for Prior Authorization are developed and based on input from the P&T Committee as well as Physician Specialist experts. Your Physician may contact Health Net to obtain the usage guidelines for specific medications.

If authorization is denied by Health Net, you will receive written communication including the specific reason for denial. If you disagree with the decision, you may appeal the decision. See "What if I have a disagreement with Health Net?" earlier in this guide.

Prescription Drug Program Exclusions and Limitations

- Prescription drugs filled at pharmacies that are not in the Health Net Ambetter Pharmacy Network are not covered except in emergency or urgent care situations.
- Prescription drugs prescribed by a Physician who is not a Member or participating Physician or an authorized Specialist are not covered, except when the Physician's services have been authorized, or because of a medical emergency condition, illness or injury, for Urgently Needed Care or as specifically stated.

- Supply amounts for prescriptions that exceed the FDA's or Health Net's indicated usage recommendation are not covered unless Medically Necessary and Prior Authorization is obtained from Health Net. Drugs that are not approved by the FDA are not covered, except when such drugs are considered Experimental Services or Investigational Services or part of treatment under an Approved Clinical Trial. For additional guidance, see "Does Health Net cover the cost of participation in Approved Clinical Trials?" and "What if I have a disagreement with Health Net?" earlier in this guide.
- Drugs prescribed for a condition or treatment not covered by this Plan are not covered. However, the Plan does cover Medically Necessary drugs for medical conditions directly related to noncovered services when complications exceed routine Follow-Up Care (such as Life-Threatening complications of cosmetic surgery).

1. Testing is not complete; and
2. The efficacy and safety of such services in human subjects are not yet established; and

However, if the Plan denies or delays coverage for your requested service on the basis that it is an Experimental Service or Investigational Service and you meet all the qualifications set out below, the Plan must provide an external, independent review.

Qualifications

2. Your Health Care Provider must certify to the Plan that you have a Life-Threatening or Seriously Debilitating condition for which standard therapies have not been effective in improving your condition, or are otherwise medically inappropriate, or there is no more beneficial standard therapy covered by the Plan.

3. Either (a) your Health Care Provider, who has a contract with or is employed by the Plan, has recommended a drug, device, procedure, or other therapy that the Health Care Provider certifies in writing is likely to be more beneficial to you than any available standard therapies, or (b) you or your Health Care Provider, who is a licensed, board-certified, or board-eligible Physician qualified to practice in the area of practice appropriate to treat your condition, has requested a therapy that based on two documents from acceptable medical and scientific evidence, is likely to be more beneficial for you than any available standard therapy.
4. You have been denied coverage by the Plan for the recommended or requested service.
5. If not for the Plan's determination that the recommended or requested service is an Experimental Service or Investigational Service, it would be covered.

External, Independent Review Process

If the Plan denies coverage of the recommended or requested therapy and you meet all of the qualifications, the Plan will notify you within five business days of its decision and your opportunity to request external review of the Plan's decision. If your Health Care Provider determines that the proposed service would be significantly less effective if not promptly initiated, you may request expedited review and the experts on the external review panel will render a decision within seven days of your request. If the external review panel recommends that the Plan cover the recommended or requested service, coverage for the services will be subject to the terms and conditions generally applicable to other benefits to which you are entitled.

DMHC's Independent Medical Review (IMR)

This exclusion does not limit, prohibit, or modify a Member's rights to an IMR from the DMHC as described in the EOC in the "General Provisions" section.
