

## Updated Payment and Clinical Policies: *Effective 7/7/2026*

Thank you for your continued partnership with Home State Health Plan.

As you know, we continually review and update our payment and utilization policies to ensure that they are designed to comply with industry standards while delivering the best patient experience to our members.

We are writing today to inform you of new and/or revised policies that Home State Health Plan will be implementing effective **7/7/2026**.

Policy Number	Policy Name	Policy Description	Lines of Business
CP.MP.251	Radiation Therapy for Skin Cancer	Although surgical excision remains the primary treatment for skin cancer, radiation therapy serves an integral role in both definitive and adjuvant contexts. Radiation therapy is a fundamental treatment modality for skin cancers, offering curative potential in members/enrollees who are not candidates for surgery and reducing the risk of recurrence and metastasis when used as adjuvant therapy.
