What's New: 2025 Ambetter from Peach State Health Plan

Introducing Ambetter Health Solutions: An ICHRA Offering

What is an ICHRA?

Individual Coverage Health Reimbursement Arrangements (ICHRA) **allow companies to reimburse their employees, tax-free, for their individual health insurance premiums and qualified medical expenses.**

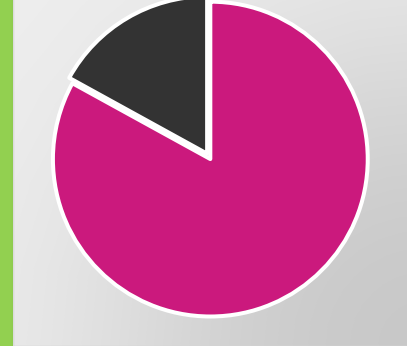

Employees can use these tax-free dollars to purchase insurance from carriers that offer individual plans in their area.

Benefits to Providers

- New patient population
- **Less bad debt and charity care**
- Patients can seek preventive care and address chronic conditions at early stages
- **Reliable payments via low cost-share plans that shift costs away from patients**
- Increased coordination of care due to plan portability

Who is adopting ICHRA?

Origin of Adoption

ICHRA adoption will largely be driven by small businesses. **88% of employers offering ICHRA have 20 or fewer employees.**

ICHRA has been a net gain for health insurance. **83% of companies were not previously able to offer health benefits before the adoption of ICHRA.**
